

Esi Domi, Ph.D.
School of Pharmacy, Pharmacology Unit,
Center for Neuroscience,
University of Camerino,
Camerino, Italy

Positions

- 2021 – present Research associate at the School of Pharmacy, Center for Neuroscience, University of Camerino, Camerino, Italy
2015 – 2021 Post-doc at the Department of Biomedical and Clinical Sciences, Center for Social and Affective Neuroscience, Linköping University, Linköping, Sweden.

Educational Background

2012 – 2015 **PhD in Chemical and Pharmaceutical Sciences and Biotechnology: Pharmaceutical Sciences** at the International School of Advanced Studies of the University of Camerino, Camerino, Italy
Supervisor: Prof. Roberto Ciccocioppo

Selected Honors

- 2022- Awarded with the prize, the Jörgen Engel Stipendium from the Swedish Society of Addiction Medicine for an outstanding article in addiction science.
2019-Young Investigator Award from the European Society for Biomedical Research on Alcoholism (ESBRA), Lille, France
2018-Young Investigator Award from the International Society for Biomedical Research on Alcoholism (ISBRA), Kyoto, Japan
2018- Junior Investigator Award from the Research Society of Alcohol (RSA) and by the National Institute on Alcohol Abuse and Alcoholism (NIAAA).

Institutional Responsibilities: 2022- present Board member of the European Society for Biomedical Research on Alcoholism (ESBRA), Early-Career Investigators committee.

Fundings

- 2019-2022: Vetenskapsrådet from the Swedish Research Council: Targeting compulsivity to treat alcohol addiction: A translational strategy.
- 2018-2021: LIONs postdoc grant, Linköping, Sweden: Identifying the brain networks and molecular mechanisms that drive compulsive-like behavior in Alcohol Use Disorders.
- 2018: Center for Systems Neurobiology, Linköping University: The role of orbitofrontal cortex-amygdala circuitry in compulsive alcohol intake.
- 2015: Research grant from the Italian Society of Pharmacology (SIF) and Merck Sharp Dohme Corporation: “Exploring new mechanisms responsible for the progression to alcohol addiction: Searching for novel medications”
