

Italy- India Bilateral Workshop on

"Renewable energy technologies at the crossroads of "glocal" energy grids"

*Framed within the Executive Programme of Scientific and
Technological Cooperation valid for the period 2017-2019 between Italy and India*

Camerino, Sala Rettorato 17-18 September 2018

<http://superfici.df.unicam.it/>

Topics:

International Cooperation on Energy and Environmental Impact
Funding strategies for scientific programs on Energy
Systems and Energy Grids. Localized versus delocalized generation and management
Mathematical models and Effects on Economy
Hydrogen and Cogeneration
Electric Accumulation and conversion
Nanotechnologies and new materials
Printable photovoltaics and thermoelectric devices
Chemistry Technologies
Beyond current lithium batteries
Novel Technologies on Energy
IoT applied to Energy Systems

Opening Session :

C. Pettinari , A. Pastorelli , M. Spadoni , B. K. Panigrahi, R. Gunnella

Invited Speakers :

M. De Sole, L. Martini, B.K. Panigrahi, L. Barelli, N. Rajalakshmi, F. Croce, S. Ramaprabhu, L. Ottaviano, S. Sampath , A. Reale, M. Fabrizio, P. P. Kundu, F. Nobili, N. C. Pramanik, V. K. Sharma, K. A. Subramanian, L. Mostarda, C. Lucheroni, M. Testi
