

Italy–Venezuela Workshop on Seismic Hazard and Resilience

From Active Tectonics to Seismic Microzonation

University of Camerino, Italy

26–28 August 2026

Workshop Overview

Organized within the **Erasmus+ KA171 mobility program** between the University of Camerino, Universidad Central de Venezuela (UCV), and Universidad Simón Bolívar (USB), this workshop has been developed in response to the recent seismic events in Venezuela.

The workshop aims to provide students with practical knowledge and tools on seismic hazard, seismic microzonation, and local seismic response, supporting their training and scientific discussion in the post-earthquake context. The workshop is organized with the support of the REDI Consortium and the Near-FIRe Project – Near-Surface Fault Imaging for Resilience.

Wednesday, 26 August 2026

14:00–14:45 | Welcome and Opening Remarks

Prof. Graziano Leoni

Rector, University of Camerino

Prof. Emanuele Tondi

Vice Rector, University of Camerino

Prof. Luciano Barboni

Rector's Delegate for Extra-EU International Mobility, University of Camerino

14:45–15:30 | Recent Seismicity in Venezuela

Prof. Michael Schmitz

Professor, Universidad Central de Venezuela / Universidad Simón Bolívar

15:30–16:00 | Coffee Break & Group Photo

16:00–18:00 | Seismic Microzonation

Dr. Lucia Luzi

Head of the INGV Camerino Unit

Istituto Nazionale di Geofisica e Vulcanologia (INGV)

18:00–18:30 | Open Discussion

Italy–Venezuela Workshop on Seismic Hazard and Resilience
University of Camerino, Italy. 26–28 August 2026

Thursday, 27 August 2026

14:00–15:30 | Local Seismic Response

Dr. Giulio Brunelli

Researcher, INGV Camerino Unit

Istituto Nazionale di Geofisica e Vulcanologia (INGV)

15:30–15:45 | Coffee Break

15:45–18:00 | Local Seismic Response – Practical Session with Strata

Dr. Giulio Brunelli

Researcher, INGV Camerino Unit

Istituto Nazionale di Geofisica e Vulcanologia (INGV)

Friday, 28 August 2026

10:00–12:00 | Surface-Wave Methods – Practical Session (not available online)

Prof. Miller Zambrano

Associate Professor, University of Camerino

12:00–14:00 | Lunch

14:00–15:00 | The Role of Geophysical Societies in Earthquake Resilience

Eng. Massimo di Giulio Colimberti

Senior Geophysicist, Sociedad Venezolana de Geofísicos (SOVG), Venezuela

15:00–15:15 | Coffee Break

15:15–16:15 | Seismotectonic of Central Italy

Dr. Tiziano Volatili

Researcher, University of Camerino

16:15–17:15 | From Seismic Risk to Community Resilience

Dr. Flavio Stimili

Researcher, University of Camerino

17:15–18:00 | Open Discussion & Final Remarks

Italy–Venezuela Workshop on Seismic Hazard and Resilience
University of Camerino, Italy. 26–28 August 2026
