for the Academic Years 2022/2023

**ACTIVATES
the Advanced International Qualification University Course
"APPLICATION OF LASERS AND NEW TECHNOLOGIES FOR THE ORAL
AND PERIORAL REGION "**

Art. 1 - AIMS AND TRAINING OBJECTIVES

The international qualification university course is directed to individuals graduated in medicine and surgery and in dentistry.

Laser and new related technologies are largely used in Aesthetic Medicine and Dentistry. The aim of the course will be the training on the use of laser technology in aesthetic medicine of the face and in the various dental specializations (conservative, endodontics, periodontology, surgery, oral pathology, prostheses, bio stimulation). Attention will be paid to the aesthetic treatment of hard tissues (composite resins and facets) and soft tissues (rejuvenation, bio stimulation).

A particularity of the Course will be the provision of its theoretical part in e-learning and videoconferencing, to make easier to follow it by professionals already employed. The frontal (face to face) part of the training **will be carried out in Rome at the International Medical Radio Center (C.I.R.M.). The practical part of the training will include intensive internship**

courses. Demonstrations that require the use of scientific equipment will be carried out in collaboration with the Society 8853 based in Milan.

Art. 2 - PROFESSIONAL PROFILE

The Course intends to provide high level formation of international and namely of European level for professionals who will work in their own studios, multi specialist centres, wellness centres, as well as in the industry for the design and production of devices in the sector.

Art. 3 - EMPLOYMENT PROSPECTS OR POTENTIALITIES FOR IMPROVING A POSITION OR ROLE ALREADY PLAYED

A main purpose of the Course is the improvement of the technological equipment available with the possibility of a wider use of laser technological devices in the medical and dental professional practice.
