The members of the Committee must sign a declaration of commitment relating to compliance with ethical principles, confidentiality, and absence of incompatibility.

Any instances of recusal of one or more members of the Selection Committee by the candidates, if the conditions set out in Art. 51 of the Code of Civil Procedure apply, must be proposed to the Rector within the peremptory term of thirty days from the publication in the Official Gazette of the Italian Republic of the Decree appointing the Committee. After this deadline and, in any case, after the Committee takes office, no requests for recusal of Committee members shall be allowed.

Given the current pandemic situation, the Committee must necessarily make use of online/remote tools for collegial work.

Art. 7

Work of the Selection Committee

The selection procedure shall take place in the following manner:

1) Preliminary assessment of candidates with reasoned analytical judgment (individual and collegial) on the qualifications, curriculum and scientific production, including the doctoral thesis, according to the criteria set out in Art. 24 of Law No. 240/2010 and in Ministerial Decree No. 243 of 25 May 2011;

2) If the number of candidates more than six, the Committee shall carry out a preliminary assessment of the candidates, aimed at creating a "short list" of the comparatively more deserving ones, admitted to the public discussion of qualifications and scientific production, the numerical consistency of which may not be less than six or more than 20% of the candidates. The Committee shall evaluate, using reasoned analytical judgment (individual and collegial), the qualifications, the curricula and the scientific production of the candidates, including the doctoral thesis, according to the criteria provided for by Art. 24 of Law No. 240/2010 and by Ministerial Decree No. 243 of 25 May 2011.

The Committee is required to apply the principles expressed in the European Charter for Researchers on the qualitative and quantitative evaluation of merit. This evaluation shall put the emphasis on the exceptional results obtained in a diversified personal path and not only on the number of publications, and appropriately considers teaching and supervision activities, teamwork, knowledge transfer, research management, innovation and public awareness activities. Career breaks, aimed at conducting other experiences in public or private entities, or changes in the chronological order of the curriculum shall be considered as a contribution to the professional development of researchers in a multidimensional path. Any experience of mobility or change of discipline or field shall be considered valuable contributions.

With regard to scientific production, the Committee shall express, for each candidate, applying collegial judgment, the degree of creativity and autonomy (as required by the Human Resources Strategy for Researchers).

Once the short list has been defined, or, if a short list is not necessary, after examining the qualifications, the curricula and the scientific production of the candidates, the Committee shall establish the date for the public discussion of the same qualifications and scientific production for the purposes of the final evaluation of admitted candidates, which will be communicated to candidates with at least 20 days' notice.

To test their knowledge of the English language, candidates must publicly carry out, in front of

the Selection Committee, a short presentation, in English language, on a topic inherent to their qualifications and their scientific production and freely chosen.

At the same time, candidates will discuss qualifications and publications with the Committee.

The presentation in English language and the discussion of qualifications and publications will take place remotely on 19 January 2024 at 9.30 am in a virtual classroom, the link to which will be communicated after the appointment of the Committee.

To make the presentation, candidates must have a valid identification document.

The non-presentation by the candidate for the discussion shall be considered an explicit and definitive manifestation of the will to renounce the selection procedure.

The Committee shall proceed with the attribution of scores, reserving 20% of the overall score for the presentation, solely in relation to the assessment of an adequate knowledge of the English language, and 80% for the qualifications and research products presented by the candidates, **and shall conclude its work as soon as possible.**

The proceedings of the Committee consist of the minutes of the individual meetings, including the individual and collective judgements expressed on each candidate, as well as the summary report of the work carried out.

After completing its work, the Selection Committee shall deliver the competition documents to the Procedure Manager.

The Rector shall ascertain the formal regularity of the documents, issuing a Rector's Decree, which shall be published on the University website and on the online notice board of the University.

In the event of any irregularities, the Rector shall send the proceedings back to the Committee, together with a substantiated decision, establishing a deadline to provide for any necessary changes.

Art. 8 Call

The Board of the School that requested the Selection Procedure, by means of a substantiated resolution and with a favourable vote of the absolute majority of Associate and Full Professors, shall draft a proposal for the Call, taking into account the evaluation of the Committee and the teaching and research needs of the School. The contract shall last three years and may be renewed, one time only, and for a period of only two years, after the evaluation of teaching and research activities carried out.

Art. 10

Extension of the contract

The evaluation shall be performed on the basis of the methods, criteria, and parameters defined by Ministerial Decree No. 242 of 24 May 2011.

The evaluation shall be carried out by a Committee appointed according to the criteria and methods indicated in Art. 3 of the Regulations and in Art. 6 of this Notice.

The exercise of freelance activity is incompatible with the full-time employment.

Without prejudice to compliance with contractual and institutional obligations, fixed-term researchers can freely carry out lectures and seminars of an occasional nature, scientific collaboration and consultancy, scientific and cultural communication, and dissemination, as well as publishing and editorial activities.
