of researchers in a multidimensional path. Any mobility experiences or the change of discipline or sector are considered valuable contributions.

With regard to scientific production, the Committee shall express, for each candidate, in the final judgment, the degree of creativity and autonomy (as foreseen by the *Human Resources Strategy for Researchers*).

The Committee, during their first meeting, and in compliance with the provisions of Article 8 of the Regulation, decides on the criteria and methods for evaluating the qualifications, the project and the interview, if envisaged.

Furthermore, in their first meeting, the Committee must:

1. elect the President and the minutes-taking Secretary;
2. sign a declaration of commitment regarding compliance with ethical principles, confidentiality and the absence of situations of incompatibility and having read the “*Guidelines on respect for gender equality*”, sent by the Administration at the time of their appointment.

At the end of the first meeting, the minutes containing the criteria and methods for evaluating the candidates are sent to the procedure manager, who ensures its publicity through publication on the University website.

The evaluation will be followed by an interview to ascertain the candidates’ aptitude for research.

The public interview will be conducted person, and is scheduled for 5 October 2026, at 12:00 p.m. in Camerino (MC), at the Computer Science Department, Via Madonna delle Carceri No. 7.

Failure by the candidate to appear at the interview is considered an explicit and definitive manifestation of the will to renounce the selection procedure.

The candidates will be evaluated comparatively on the basis of the following elements:

- a) CV suitability for assisting in research and innovation activities related to the content of the research project being selected;
- b) Quality, originality, innovation, and relevance of the attached publications to the content of the research project being selected;
- c) Interview to assess suitability for the activity being performed, as well as assessment of English language proficiency.

The maximum scores for the criteria referred to in letters a), b), and c) are indicated in Article 1 of the Call.

The Committee, based on the provisions of letters a) and b), will collectively express an opinion and assign the corresponding score to each candidate.

This score must be communicated to them before the interview.

Once the evaluation has been concluded, the Committee will collectively express, for each candidate, a reasoned overall judgment and the relative score.

The Committee shall draw up a rank list, considering the scores obtained by the candidates, and shall identify the winner of the selection procedure.

The selection is considered passed with a minimum score of 70 points out of 100 overall.
