With reference to the procedure referred to in the epigraph, a typographical error has been detected in Article 7 of the notice/call, precisely in the part where it states: “... *The Commission shall proceed to the attribution of the scores, reserving 20% of the total score to the seminar, solely in relation to the verification of an adequate knowledge of English, and 80% to the titles and research products presented and shall conclude its work as soon as possible and in any case no later than mid-October...*”.

Therefore, according to the provisions of the Regulations for RTD A) recruitment procedures, it must be understood that:

“The Commission shall proceed to the attribution of the scores reserving 20% of the total score to the seminar, solely in relation to the ascertainment of an adequate knowledge of English, and 80% to the titles and research products presented by the candidate(s) and shall conclude its work within a maximum period of 4 months from the date of publication of the decree of appointment of the Commission itself. Once the deadline has expired, the Rector may grant a one-time extension by setting a new appropriate deadline, or initiate, by means of a reasoned measure, the procedures for the replacement of the members responsible for the causes of the delay”.
