

In the academic year 2021/2022, teaching activities will take place face-to-face, with simultaneous online transmission in virtual classrooms (Webex platform), except for practical and laboratory activities that cannot be attended online, which will be communicated for each Study Program individually, based on specific characteristics of the activity.

Starting from 1 September 2021, and until further notice, in compliance with the Legislative Decree No. 111 of 6 August 2021, access to university facilities will be allowed only to holders of the Green Pass (valid EU Digital COVID Certificate), or an appropriate medical certification of exemption.

In order to attend face-to-face lessons and teaching activities, and in order to be able to take the exams, it will be necessary to show the EU Digital COVID Certificate ("Green Pass"), when accessing university facilities, and random checks of identity documents will be carried out.

The preventive measures already in place, such as keeping a safe distance, wearing a mask, and assignment of classroom seats via the app, shall continue to apply in full.

Furthermore, from 1 September 2021, the exams will take place primarily face-to-face. Remote exams will be allowed only in the event of the following conditions, which, however, must be proven by relevant documentation:

- Foreign student, currently staying his country of residence, subject to restrictions for access to Italy<sup>1</sup>;

- Student living with a subject at high risk for developing the disease, included among the priority categories, identified by the Interim Recommendations on the SARS- CoV-2/COVID-19 vaccination target groups ([LINK](#)).

Students who find themselves in one or more situations described above, and who hold documentation attesting their current situation, may request take the exams remotely, registering for the relevant exam session.

All teachers will set different dates for face-to-face and remote exams. For each exam, the modality will be shown in the list of available exam dates (see the example below).
