# Summer School

## Agri-fiSh

4 - 5 - 6 September 2024

The School is open to undergraduate, graduate, PhD students and professionals involved in the study and management of land and sea.

Topics include the acquisition of notions and practical skills in aquaculture, circular economy, veterinary science, biology, chemistry, with a Field Visit in Visso, Lectures & Laboratories

### Teaching Programme

Main topics: Biological activities of plant-based bioactive compounds; Lactic acid bacteria in animal productions; HPLC and agricultural waste analysis; Contaminant extraction with QuEChERS method; Sustainable aquaculture: new aquafeeds for trout farming in Italy; Farmed fish welfare evaluation: biometrics and organ sampling; Otoliths and fish well-being assessment; Trout welfare in farming and experimental conditions; Fish sampling protocol

### Logistics

Participants are required to be in Ancona on the first day, as the School will start at CNR-IRBIM. The School will arrange all transportations during the 3 days. A certificate of participation and 2 CFU will be issued at the end of the School (CFU for Unicam students only)

### Location

The School will be held in the Marche Region at the premises of UNICAM- ChiP, with other activities taking place in Ancona, Camerino, Matelica and Visso

### Costs

The School is free. Accommodations are located in Camerino. Lodging in the University Structure is €28 for a single room (€20 if UNICAM students). Lunches and one dinner are offered by the School. Payments are to be made by participants directly on-site.

For pre-enrollment please send an email to: [germana.borsetta@unicam.it](mailto:germana.borsetta@unicam.it)

**The deadline for the online application is on 19<sup>th</sup> August**
